

Mt Victoria Permanent Course

Start at Charles Plimmer Park, top end of Majoribanks Street.

The map represents a detailed interpretation of the terrain. Study the legend to understand the map.

The "controls" (checkpoints):
Circles on the map indicate where to find the orange and white plaques you're looking for. The plaques have a number in the lower right and two letters in the upper left. When you get to a control, copy the letters into the correct numbered box on your answer sheet.

The course: A series of "controls" (checkpoints) which you visit in a specific order. They vary in difficulty and length. Allow 30 minutes for the short course and 60 minutes for the long.

You can check that you completed the course correctly by checking the series of letters on the club website (under Training > Permanent Courses) which can be found by scanning the QR code.

Hints:
- Orientate your map to match the ground
- Look around you and line up features you can see like paths, roads and fences.

Legend

	main road		contour
	large path		form line
	small path		knoll
	indistinct path		depression
	fence		stump, rootstock
